EASTMAN KODAK COMPANY

ROCHESTER 4, N.Y.

PLEASE ADDRESS REPLY TO
RESEARCH LABORATORIES

October 1, 1954

25X1

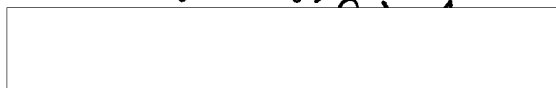

As I told you on the telephone this morning, we are sending you four rolls, 35mm by 100 feet, of an experimental Kodalith Panchromatic Stripping Film, thin base, No. 0-1101-1-3, for your tests.

This material seems satisfactory in all respects except for bad density mottle in medium density areas. As I understand from you, however, the use of the material will not result in intermediate densities but only in maximum and minimum densities, and this defect, therefore, should not cause any difficulty.

Please let us know as soon as you can whether or not this material is satisfactory for your purposes.

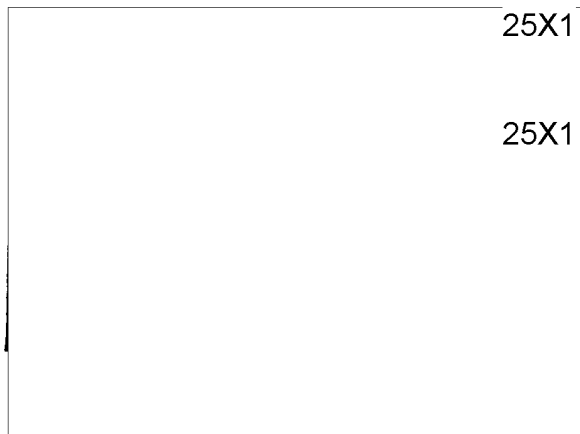

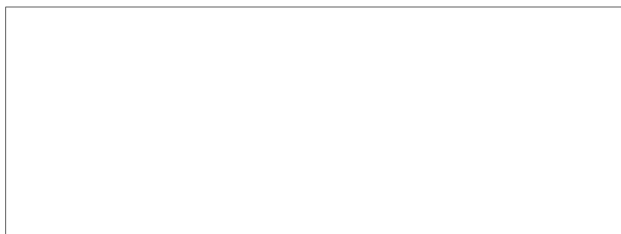

Yours very truly,

25X1
